SHANNEN REESE

Houston, Texas | shannenreese@gmail.com | 832.472.4608 | shannenreese.com

PROFESSIONAL SUMMARY

- Highly motivated and enthusiastic Web Developer with extensive experience working to develop Single Page Applications with Angular versions 4-10.
- Experience integrating RESTful API data with Angular application using HttpClient – this includes using Angular frontend to get and post data to and from a database.
- Strong foundation in technical ability using HTML5, CSS3, JavaScript, and JQuery, but also eager to learn new technologies!
- Experience building custom applications, including creating components, navigation, and user authentication.
- Experience working within an Agile environment, attending daily scrum meetings and operating in two-week sprints.
- Articulate and skilled communicator, with the demonstrated ability to collaborate, build relationships, mentor and influence others.
- Exceptional problem-solving skills, proven to be a self-starter and reliable finisher.

TECHNICAL SKILLS

- **Web Technologies:** Angular 4-10, HTML5, CSS3, JavaScript, AJAX, jQuery, JSON, Bootstrap, Moment, FlexBox, Ag-Grid, NgRX, RxJS
- **Server Technologies:** C# .NET, MVC, Node.js/Express
- **Databases:** MySql, MongoDB, SQL
- **Source Control:** Git, TFS

CAREER HIGHLIGHTS

Developer
Howco, Houston, TX   **April 2019 - Present**

- Currently building an internal HR web application using Angular 10/C#/MongoDB.
- Building from ground up and on the frontend implementing State Management using NgRx, RxJs Observables, Ag-Grid and Angular Material.
- On the backend, working in C# developing WebAPIs using EntityFramework and MongoDB.
- Design clean UX/UI using dynamic Reactive Forms, integrated with tables, grids, and graphs. Eye for style on look and feel of the web page with SASS/CSS.
- Integrated web security using token based validations.
- Extensive knowledge in Angular using components, services, custom directives, and templates that can be re-used at various places in the application.
- Assisted in architecting database schemas, backend code and frontend code standards for sub-applications within main application.
- Served as a liaison between business and internal developers to create detailed requirements to set reasonable milestone deliverables.

Jr. Web Developer
Roll the B, Houston, TX   **June 2014 – April 2019**

- Developed Single Page Application using Angular.
- Working with Components, Templates, Services, Observables, Routing, and Events.
- Integrating RESTful API data with Angular using HttpClient. Using Angular front end to get and post data (artifacts) to and from a database.
- Create login pages with user authentication (JWT) for internal CRM application.
- Developing server-side API services, partials (EJS) and MySQL functions using Node.js/Express Framework.
- Building inventory control responsive website for herbs/oils company from the ground up. Created the summary page, product list, and menu styles. Implementing backend services using C# .Net WebAPI and ADO.Net. Created SQL database using SSMS and developed CRUD statements that integrates with API services.
- Developing weather API service using Node.js that returned custom JSON objects.
- Integrating TDD/BDD Mocha framework to create and test Promises and enhancing with ASYNC/AWAIT.
- Develop applications using MongoDB, Express, Angular, Node (MEAN stack) that consist of custom lists, forms, grid layouts, carousels, embedded audio/video for internal business processes.
- Implementing Node server and Heroku servers on different projects. Setup MySQL and MongoDB databases for data transfer and storage. Knowledgeable in debugging and error handling using Chrome dev tools.
- Familiar with SDLC. Practiced Agile Methodologies with scrum, sprint planning, and code reviews.
- Building relationships and working very closely with clients.

Sr. Account Coordinator
Berlin Packaging, Houston, TX   **Jan 2012 - Dec 2017**

- Built and maintained strong relationships with customers to achieve optimal performance, profitability, and 100% customer satisfaction.
- Negotiated with suppliers on pricing, logistics, and manufacturing platforms. Focused on cost savings and margin enhancements to meet business objectives, while creating best practices.
- Measured, controlled, and benchmarked fluctuation in industry price schedules for over 100 suppliers.
- Processed customer orders, manage inventory levels, resolve quality issues, and expedite orders to ensure on time demands.
- Managed all internal aspects of customer accounts. Coordinated with sales and sourcing to understand current and upcoming projects.
- Consistently improved customer satisfaction through expert resolution of conflicts, issues, and concerns.
- Extracted and analyzed large volumes of data used to make business decisions.
- Analyzed financial data through bidding process to make the best cost-effective decisions to meet customer demand while increasing sales.
